

To Whom it May Concern

Re Fantastic Services

Fantastic Services have provided after builder cleaning services for our construction company on numerous high end building projects over the past 3 years.

We have always found the Fantastic Services Team to be reliable, honest and hard working. They are always willing to follow instructions regarding special treatment of unique surfaces and finishes. We have found them to be diligent and accommodating of other trades, and complete work in often difficult circumstances and tight timeframes.

Fantastic Services are highly professional and we would have no hesitation in recommending their services.
